

# INVESTIGATE FRAUD MORE THOROUGHLY

## CLEAR FOR CORPORATE SECURITY

**Need an effective way to investigate a party of interest?** CLEAR<sup>SM</sup> is the next-generation research tool that can help. With a robust collection of both public and proprietary records, CLEAR makes investigations easier by giving you:

- A thorough source of public and proprietary records, with real-time data to bring you the most current information
- Graphical connections between people, addresses, and phone numbers to help verify identity
- Integrated Web searching, including social network sites, providing information not found in public records
- Customized reports to create and save for later use or share with necessary parties

You can start your search with any information you have available, such as an individual or business name, SSN, or tax ID, and get reliable results quickly.

### CLEAR FEATURES THAT MEET YOUR SEARCH NEEDS

Your ability to investigate people is dependent on data, so the quality, relevance, speed, and clarity of your search results are critical. CLEAR has features that address all of these needs:

- A single search covering multiple data sources
- Deduplication of records and consolidated search results
- The most relevant, current records at the top of your results list
- Reverse cell phone and VoIP data
- My Workspace for link-charts, mapping, and other analysis

### CLEAR TRAINING AND SUPPORT AT NO EXTRA CHARGE

As a CLEAR customer, you have access to a range of training opportunities and support – all free of charge and customizable to meet the specific needs of your users.

- Live customer service at 1-877-242-1229
- Personalized, over-the-phone training and on-site training
- Online training via WebEx (register at [clear.webex.com](http://clear.webex.com))

THOMSON REUTERS™

**CLEAR HELPS YOU MANAGE RISK WITH REAL-TIME DATA**

CLEAR with Web analytics searches not only public records, but thousands of Internet sites so you get wider, deeper, real-time information.

The screenshot shows the CLEAR search interface. It has a top navigation bar with 'Search', 'My Results', 'My Workspace', 'Account Tools', 'Logout', 'Online Help', and 'Training'. Below this is a search bar with tabs for 'Person', 'Business', 'Asset', 'Phone', 'License', and 'Court', and a 'Search All' button. The main area is divided into two sections: '1 Search Criteria' and '2 Data Sources'. 'Search Criteria' includes fields for Last Name, First Name, Middle Initial, Business Name, Date of Birth, SSN, Address, City, State/Terr, Zip Code, Phone Number, DPPA, and Reference. 'Data Sources' includes checkboxes for Person (Public Record People, Web Analytics), Business (Public Record Business, Web Analytics), and Vehicle (Public Record Vehicle, Web Analytics). A 'Run Search >>' button is at the bottom right.

Search across multiple databases with a single search – you can even start with a partial name or SSN.

The screenshot shows the search results for 'jane sample-document, jane'. The top bar indicates '20 Results found in 3 different sections for sample-document, jane'. The results are categorized into 'Web Results', 'Public Records', and 'Yahoo Web'. The 'Web Results' section shows a list of results with titles and URLs, such as 'Professional & Business (2)', 'Public Records (1)', and 'Yahoo Web (17)'. A 'Filter Results' sidebar on the right allows filtering by category and frequency, with categories like City (1), Company (7), Country (1), EmailAddress (1), IndustryTerm (1), Organization (2), Person (17), PersonEmailAddress (1), PhoneNumber (3), and Quotation (1).

CLEAR Web Analytics searches social networking sites, blogs, and more for deeper information not found in public records.

Filter your Web results by the categories of importance to you.
